

HOW TO CLEAN AND MAINTAIN KALIA'S BATHROOM FAUCETS

To avoid damage and optimize your product, you must follow the below recommendations when maintaining your Kalia product. Damages resulting from inappropriate handling are not covered by the Kalia warranty.

- **Rinse with clean water and dry with a soft cotton cloth or sponge.** Do not use anything abrasive such as a scouring brush or sponge to clean the surfaces.
- **For tough stains, use a gentle liquid detergent such as dish soap and hot water.**
Do not use an abrasive and acidic cleaner.
- **Carefully read the label on the cleaning product to make sure it is safe and appropriate.**
Always try the cleaning solution on a less visible surface before applying it to the rest.
- **Completely rinse with water immediately after applying the cleaner.**
- **Regular cleaning prevents the accumulation of dirt and tough stains.**
